Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-17, drawn to a method for inhibiting matrix metalloproteinase enzymes in a mammal comprising administering to the mammal isophthalic acid derivatives containing non-heterocyclic groups or pharmcetically acceptable salts thereof, classified in class 514, subclasses 513, 522, 533; class 558, subclasses 251 and 414; class 562, subclasses 433 and 453 .
 - II. Claims 1-17, drawn to a method for inhibiting matrix metalloproteinase enzymes in a mammal comprising administering to the mammal isophthalic acid derivatives containing heterocyclic groups or pharmcetically acceptable salts thereof, classified in class 514 , subclasses 183, 210.18, 227.8, 231.8, 252.11, 316, and 422; class 544, subclasses 357, 60, and 78; class 546, subclass 189; class 548, subclasses 518, 950, and 962.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case there are

Art Unit: 1625

two different inventions I and II. The invention I is related to the side chain groups of isophthalic acid consisted of alkyl, hydroxy, alkoxy, alkenyl, alkynyl, NO₂, CN, whereas the invention II is related to the side chain groups of isophthalic acid derivatives consisted of different kinds of heterocycles, such as pyridine, furan, and etc..

Furthermore, each invention has a different use and effect due to unrelated substituents attached to the core of the compounds. If the applicants elect the invention II, the invention II is further subjected to the restriction.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Mr. Claude F. Purchase on 7/14/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1625

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to T. Victor Oh whose telephone number is (703) 305-0809. The examiner can normally be reached on Monday through Friday from 8:30 to 5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Alan Rotman , can be reached on (703) 308-4698. The fax phone number for the organization where this application or proceeding is assigned is (703) 308-4556.
